Two Days Workshop

ON

“Hands on Training on Laboratory Skills in Microbiology”

Department of Microbiology, Sanjivani Arts, Commerce & Science College, Kopargaon organized two days workshop on “Hands on Training Program on Laboratory Skills in Microbiology”, on 10th and 11th Feb 2023.

About the Event:

Department of Microbiology, Sanjivani Arts, Commerce & Science College, Kopargaon organized two days workshop on “**Hands on Training Program on Laboratory Skills in Microbiology**”, on 10th and 11th Feb 2023. The speaker for the event was **Shri. Bharat Dawange, Scientist, Plant Protection and Dr. S. A. Bhutada.**

In the **first day** of session Dr. S. A. Bhutada gave a talk on different skills and techniques required for handling the culture and different laboratory methods. In the afternoon session hands on training was given to students of Microbiology for laboratory methods.

The **2nd Day** session was honored by **Shri. Bharat Dawange and** in his talk, he highlighted the key concepts of Lab skills in Microbiology like Calibration, Validation and Lab skills required during instrument handling.

More than **100** participants attended the workshop.

The main objective of the workshop was to provide an extensive hands on training in basic techniques used in Microbiology such as media preparation, isolation of micro-organisms, handling and purification of microbial cultures, use of different kinds of media in a Microbiology laboratory, various bacterial staining methods and differentiation of bacteria based on morphological and cultural characteristics. It also aimed in providing knowledge in instrument handling its calibration and validation.

Outcomes of workshop:

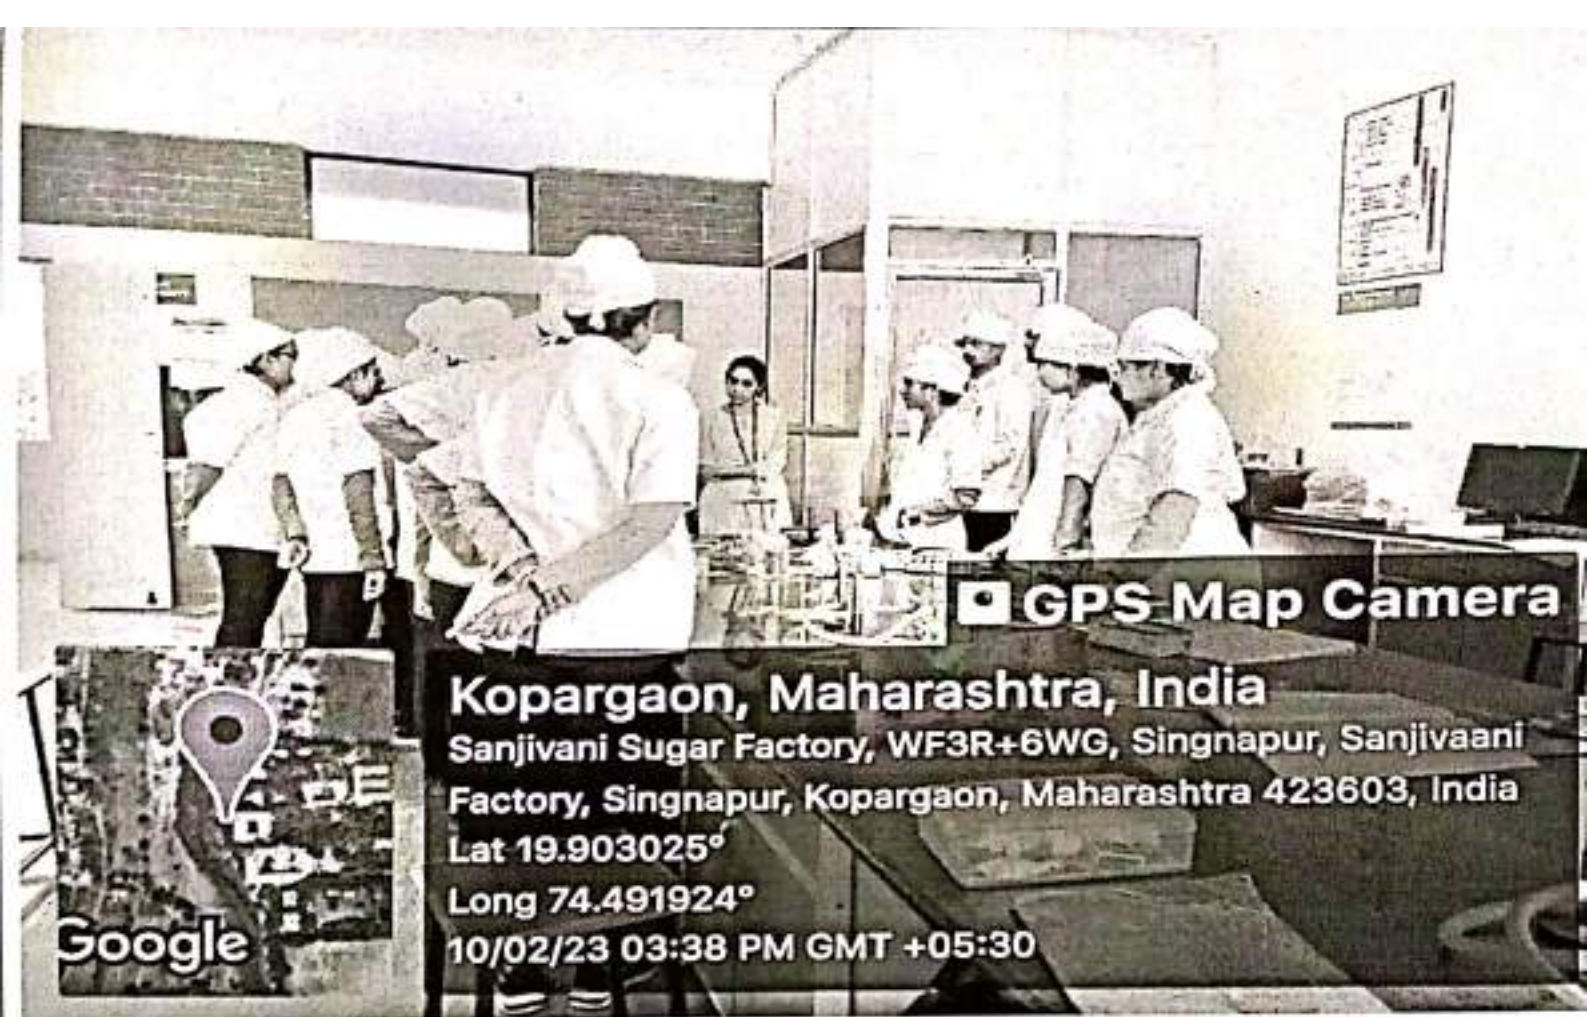

This training generated interest to study Microbiology in a student, also imparted skill and confidence to handle various microorganism. The student on the completion of the training is able to isolate microorganisms from soil, water and air, ensure the purity of the cultures they will be handling at various stages in their professions, businesses based on microbial inoculants, diagnostic labs, and research.
