Permission Letter

The Principal,
SACS College Kopargaon

Subject: Request for permission to celebrate International
Microorganism Day

Respected Sir,

To provide platform for students and to explore their ideas regarding Microbiology. I seek your permission to organize **One day International Seminar on " Bioeconomy- Moving Towards a Resilient Future"** on the occasion of **International Microorganism Day 2023** on 18th September, 2023. I request you to please kindly give me permission to organize this program Thank you.

S.A. Bhutada

Yours Faithfully
Dr. S.A., Bhutada

on

**“ International Microorganisms Day 2023
One Day International Seminar on “ Bioeconomy- Moving Towards a Resilient
Future”**

Department of Microbiology Sanjivani Arts, Commerce and Science College. Kopargaon, in association with Microbial Society India and Federation of European Microbiological Societies (FEMS) organized an One Day International Seminar on “ Bio economy-Moving Towards a Resilient Future”, on occasion of an “ International Microorganisms Day 2023” which was on 18th Sept 2023 at time 11.00 AM IST.

About the Event:

Department of Microbiology Sanjivani Arts, Commerce and Science College. Kopargaon, association with Microbial Society India and Federation of European Microbiological Societies (FEMS) organized an One Day International Seminar on “ Bioeconomy-Moving Towards a Resilient Future”, on occasion of an “ International Microorganisms Day 2023” which was on 18th Sept 2023 at time 11.00 AM IST. The session was organized on Zoom app.

Mr. Saied Aboushanab, Educational and Innovative Centers of Chemical and Pharmaceutical Technologies, Ural Federal University, Russia served as a Resource person for this seminar.

In his talk he explained that Bio- based solutions that can open paths to move towards development of biological products such as antibiotics, vaccines or therapeutic proteins. It was found in his research that several natural compounds is commonly used for BPH prevention. Efficacy of different plant extract was demonstrated in experimental animals models of BPH. Phytoestrogens are plant constituents that were documented for their therapeutic interventions, e.g. anticancer, anti-inflammatory etc, by recognized efficacy of this natural plant based products he was checked potential effects against BPH induced by in vivo studies and evaluate in vivo efficacy of isoflavones of Kudzu (NADES extract of *Pueraria lobate* roots) on testosterone induced BPH rats. Also explained applications of Biomedicines.
